Experience

SENIOR ASSOCIATE | ALTER DOMUS | SEPTEMBER 2025 – PRESENT |

Syndicated Loans Analyst: Currently manages 40 accounts worth \$500 Million USD in syndicated loan debt, utilizing Power BI to monitor trends exceptions and performance. He interprets credit agreements, maintains data, coordinates deal closings, and processes loan cash movements and fees.

- Onboards client deals to AlterDomus Agency system, works with Legal and Accounting departments to verify and process KYC/AML documents
- Reads and interprets credit agreements to extract key terms and requirements, then updates the AlterDomus Agency system to keep deal data accurate and compliant
- Calculates, invoices, collects and disburses deal-related fees; processes interest and principal payments; and coordinates new borrowing proceedings. Uses Microsoft Excel to validate loan activity and reconcile portfolio data
- Ensures accurate system set-up and ongoing maintenance of changing deal attributes across the loan lifecycle.
- Maintains deal commitments and processes ongoing loan activity (rate sets, contract rollovers, conversions, prepayments, assignments and amendments)

SENIOR IMPLEMENTATION SPECIALIST | ALTER DOMUS | FEBRUARY 2022 – AUGUST 2024 |

US Central Region Implementation Lead: Served as team lead for enterprise implementation of the Alter Domus Financial Services software (a leading Financial Services Customer Relationship Management (CRM) and reporting platform which includes 7 modules)

- *Client Implementation Lead* – Was responsible for end-to-end implementation of client solutions including client requirements development and solution design, solution configuration, and deployment support including facilitating user acceptance testing (UAT), facilitating data migration using Artificial Intelligence, and leading client end-user, core team, and administering training (including development of product training materials (videos and guides)
 - *Key Outcomes:* Led A.I.-enabled migration of 20,000 client records, the first deployment of intelligent data conversion within the North American Implementation Group. Reducing manual processing risk and accelerating go-live readiness
 - *Key Outcomes:* Led and/or supported 15 implementations ranging from 3 to 12 months in duration over last 3 years
- *Enterprise A.I. Strategy Proposal* – Worked with Director of Client Portals and Director of Artificial Intelligence to create and present a proposal to AlterDomus' Steering Committee to integrate Artificial Intelligence into their systems. Proposal identified automation opportunities, risk controls, and scalability benefits across client onboarding and data workflows.
 - *Key Outcomes:* Delivered an executive-ready AI business case and roadmap (use cases, governance, and implementation approach) for steering committee review.
- *Client Account Management* – Post-implementation, was responsible for ongoing client relationship management including building and maintaining customer relationships to drive product adoption, expansion of product usage, and serving as a customer advocate for product enhancement roadmap
 - *Key Outcomes:* Served as lead Client Account Manager for 4 client accounts totaling \$3.5M of annual revenue
- *WalkMe and ServiceNow Integration:* Spearheaded the successful integration of WalkMe and ServiceNow into the North America instance of AlterDomus' proprietary systems, optimizing process efficiency and user experience. Utilized ServiceNow Help Desk escalate client issues to responsible IT departments.

- *Key Outcomes:* Resolved client issues in timely manner using ServiceNow. Utilized ServiceNow's performance analytics tool to track incidents and report those metrics to key stakeholders on a monthly basis

PROCUREMENT ANALYST | REGIONAL TRANSPORTATION AUTHORITY | DECEMBER 2017 – JANUARY 2022 |

Buyer: Led multiple procurements across 7 departments within the daily operations of the RTA of Northeastern Illinois. Led ERP Implementation for company's procurement department.

- *RTA's Enterprise Resource Planning (ERP) Software Implementation Lead* – Served as internal overall project lead for RTA's implementation of ServiceNow Procurement Module (ITSM). Responsibilities included collaboration with the business and implementation partner across the following implementation workstream: project management and governance, business requirement traceability, security role design, access controls, functional testing, user acceptance testing, integration testing, configurable controls, and data conversion.
 - *Additional Responsibilities:* Developed enterprise-wide training materials and documentation. Led enterprise-wide training sessions for internal stakeholders. And led post-implementation support including post Go-live office hours, and system defect logging.
- *Other Procurement Analyst Responsibilities* – Worked as analyst on procurement team responsible for managing critical and high \$ value contracts
 - Oversaw 30 active contracts totaling \$6 Million to ensure contract terms were being upheld (e.g., vendor SLAs, uptime commitments, etc.)
 - Led 15 competitive proposals and bids totaling \$4 million in value, while providing detailed support to management and vendors throughout the procurement processes (including leading RFP development and response process)
 - Lead negotiations with firms to secure favorable offers that aligned with Federal Transit Authority (FTA) governance framework for procuring goods and professional services
 - Ensured awarded bidders followed Federal Transit Authority supplier diversity requirements.

BUSINESS ANALYST | COMMONWEALTH EDISON | JUNE 2011 – MARCH 2017 |

Bill Print Vendor Manager: Oversaw day to day operations with Bill Print Vendor for ComEd

- As Vendor Manager, served as Subject Matter Expert for the Request For Proposal process as well as the Implementation process in both selecting and onboarding a new Bill Print vendor
- Managed \$18 million in annual funding of ComEd postage and analyzing the spend in order to better budget funding moving forward
- Perform quarterly on-site audits in order to verify that printing was done correctly and within the specifications of the service level agreement
- Reviewed Vendor's SSAE16/SAS70 annual audit report and reviewed with leadership for risk assessment
- Developed segmentation strategy based on vendor spend and criticality to optimize resource allocation and relationship management
- Worked with vendor daily to update payment location list containing 600 locations which allows for ComEd call center representatives to guide customers to locations closest to them
- Conduct investigations of misuse of portal by ComEd employees which violated company policy for sensitive personal information and reporting findings back to Vendor
- Facilitated training for new users to the Debt Collections system
- Created annual \$100,000 contracts for vendor invoicing
